Planning of the Ateliers in Fünfbrunnen 2018:

Also for our holiday camps in 2018, the children can select a favorite topic for the time in which they take part in the holiday camp. The wishes of the children, of course, we will consider in our plans.

The choice of the Atelier is made on the registration form.

The following Ateliers will be available to the children in the coming summer:

Forest

The children who choose this Atelier will spend a lot of time in the forest. In the forest, numerous activities are organized depending on the weather and exciting questions are discussed, including:

- Collecting raspberries and blackberries to make juice and jam
- "Which mushrooms are edible?"
- Introduction to the flora and fauna of Luxembourg
- "Which trees are growing here?"
- Construction of insect hotels and furnishings in Fünfbrunnen
- "Which animals are native to the forest?"
- Overnight in the woods in good weather

- "What do bats do?"
- Construction of bat boxes to be used in the area around Fünfbrunnen

Circus

The Atelier Circus is very popular among the children. Therefore, we have decided to keep this theme in the coming year. The possibilities during the Atelier include:

- Drive unicycle
- Juggle
- conjure
- clown skits

Brook

The children who choose this Atelier will spend a lot of time at the little river. There we will build a dam with the children and catch the brooks (fish, crabs, frogs and insects) to observe them.

If possible, we try to enable the children to catch their own trout and then prepare and eat professionally around the campfire.

Programming Fünfbrunnen 2018:

The arrival of the children will take place on the day of arrival between 15:00 and 16:00 in Fünfbrunnen: Couvent Cinqfontaines, 30-32, Rue Massen, 9907 Troisvierges - <https://goo.gl/maps/cQbQNtr7LAC2>, Tel: 99 80 03 80. We ask that you comply with this time corridor, so that the respective vacation time can start on time in the interest of all concerned.

After that, sports and games are on our program. During the week numerous activities (football, basketball, dodgeball, water fight, table tennis, trampoline etc.) will be selected daily in consultation with the participants and the team of supervisors. Goose play, Stratego, Lego and Stock Rally will be just as much an integral part of our program.

Traditionally, we will sit around the campfire and barbecue. If you like, please bring along your musical instrument to support us musically in the organization of the camp hit parade. A visit to the swimming pool, a camp wedding, the "Dinner for Two" and a disco will also take place again.

Our day trips will take us to different places within Luxembourg. We are expected to spend one day in each holiday leisure in "Weiswampach am See" and play with the children in the city "Lasergames".

On the departure day, the respective Saturday, we will organize a "Family Day" in Fünfbrunnen. From 3:00 pm all families of the participating children are cordially invited to spend the last hours of the vacation with us and try out all the things that are part of our holiday camps. Who wants to be active in sports should not forget the sneakers. If you want to walk in the footsteps of children in the forest, you should plan solid footwear. From 16:00 o'clock we will have a nice barbecue and at about 19.00 o'clock the vacation time ends officially.

Communication on site:

The main languages within the group will be German and Luxembourgish. Here all participants can apply the knowledge learned in the school.

Our team of supervisors will also linguistically assist children who speak French or English.
